CC: Craig Smith, Mitchell Region Engineer  
Travis Dressen, Sioux Falls Area Engineer

REV. 2/16/16

SPECIAL PROVISIONS

PROJECT NUMBER(S): PH 0020(139) PCN: 04GP

TYPE OF WORK: INTERSECTION IMPROVEMENTS

COUNTY: CLAY, LINCOLN, MCCOOK, MINNEHAHA, MOODY, TURNER

The following clauses have been prepared subsequent to the Standard Specifications for Roads and Bridges and refer only to the above described improvement, for which the following Proposal is made.

The Contractor's attention is directed to the need for securing from the Department of Environment & Natural Resources, Foss Building, Pierre, South Dakota, permission to remove water from public sources (lakes, rivers, streams, etc.). The Contractor should make his request as early as possible after receiving his contract, and insofar as possible at least 30 days prior to the date that the water is to be used.

Greg Johnson, Jaci Benjamin, Jim Baltzer is the official in charge of the Sioux Falls, Vermillion, Madison Career Center for Clay, Lincoln, McCook, Minnehaha, Moody, Turner County.

**SPECIAL PROVISION  
FOR  
CONTRACT TIME**

**PROJECT PH 0020(139), PCN 04GP  
CLAY, LINCOLN, MCCOOK, MINNEHAHA,  
MOODY, AND TURNER COUNTIES**

**FEBRUARY 16, 2016**

---

**Field Work Completion**

The Contractor will complete the project by the October 28, 2016 field work completion date.

**471<sup>st</sup> Street North and South Calendar Day Count Closure Requirement**

In addition, the Contractor may close 471<sup>st</sup> Street North and South while completing PCC paving and the curing of the PCC pavement on SD 34. The Contractor will complete the work required within 5 calendar days.

The Department will begin charging calendar days when the Contractor closes 471<sup>st</sup> Street North and South to through traffic. The Department will continue to count calendar days until the Contractor completes placing PCC pavement, the PCC pavement has obtained a compressive strength of 4,000 psi, and the Contractor opens the intersection of SD 34 and 471<sup>st</sup> Street North and South to through traffic. The Department will count calendar days in accordance with Section 8.6 B.

If the Contractor does not complete the work within the calendar day completion requirement, the Department will make a disincentive assessment amounting to \$500 per calendar day.

**254<sup>th</sup> Street West Calendar Day Count Closure Requirement**

In addition, the Contractor may close 254<sup>th</sup> Street West while completing PCC paving and the curing of the PCC pavement on SD 115. The Contractor will complete the work required within 5 calendar days.

The Department will begin charging calendar days when the Contractor closes 254<sup>th</sup> Street West to through traffic. The Department will continue to count calendar days until the Contractor completes placing PCC pavement, the PCC pavement has obtained a

compressive strength of 4,000 psi, and the Contractor opens the intersection of SD 115 and 254<sup>th</sup> Street West to through traffic. The Department will count calendar days in accordance with Section 8.6 B.

If the Contractor does not complete the work within the calendar day completion requirement, the Department will make a disincentive assessment amounting to \$500 per calendar day.

### **258<sup>th</sup> Street East Calendar Day Count Closure Requirement**

In addition, the Contractor may close 258<sup>th</sup> Street East while completing PCC paving and the curing of the PCC pavement on SD 115. The Contractor will complete the work required within 5 calendar days.

The Department will begin charging calendar days when the Contractor closes 258<sup>th</sup> Street East to through traffic. The Department will continue to count calendar days until the Contractor completes placing PCC pavement, the PCC pavement has obtained a compressive strength of 4,000 psi, and the Contractor opens the intersection of SD 115 and 258<sup>th</sup> Street East to through traffic. The Department will count calendar days in accordance with Section 8.6 B.

If the Contractor does not complete the work within the calendar day completion requirement, the Department will make a disincentive assessment amounting to \$500 per calendar day.

### **Time Extensions**

In order to avoid or reduce liquidated damage and disincentive assessments, the Contractor may request a time extension for the calendar day count closure requirement and field work completion requirement. The Department will consider these time extension requests using the same considerations that apply when granting an extension of contract time under Section 8.7, except extra work or an increase in quantities will not qualify for an automatic extension of time based on a proportional increase in the contract amount.

### **Failure to Complete on Time**

The Contractor will complete all work on the project prior to the field work completion requirement or the field work completion requirement as amended by formally approved time extension. If the Contractor does not complete all work by the field work completion requirement or the field work completion requirement as amended by formally approved time extension, the Department will assess liquidated damages in accordance with Section 8.8. The Department will assess liquidated damages for each working day the work (project) is late until the Contractor completes all field work.

In the event the Contractor does not complete all field work on time, the Department will count working days in accordance with Section 8.6 C.

### **Expected Adverse Weather Days**

The Department has provided Attachment 1 for information purposes only as a guide to bidders. This table depicts the typical number of adverse weather days expected for any given month, based on historical records. The Department will consider this project a grading project in Zone 6.

The Department will consider expected adverse weather days cumulative in nature over the time period when the Contractor is actively pursuing completion of the work. The Department will not consider adverse weather days during an extended period of time when the Contractor is not pursuing completion of the work. When considering a time extension for calendar day count completion or field work completion of the project, the Engineer will compare the total number of expected adverse weather days against the total number of actual adverse weather days for the time period during which the work was being completed.
