ACCOUNT STATEMENT

February 1 - February 28, 2006

Portfolio Assets

Estimated Current Yield on Money Market funds, when available, reflects the current estimated yield for the Interest Period dates displayed. Estimated Annual Income, when available, reflects the estimated amount you would earn on a security if your current position and its related income remained constant for a year. Estimated Annual Yield, when available, reflects the current estimated annual income divided by the current value of the security as of the statement closing date. The information used to derive these estimates is obtained from various outside vendors; FCC is not responsible for incorrect or missing estimated annual income and yields.

***Denotes bonds with a maturity date in the next 60 days. Please contact us for further investment opportunities or any assistance.**

Brokered Certificates of Deposit are FDIC insured up to applicable limits.

"The market value of your Brokered Certificate of Deposit ("CD") holding(s) shown above reflect the estimated market value of the CD(s) and is based on information provided by one or more market data resources. If the market value listed appears as "N/A", no estimated market value was available at the time this statement was prepared. If no estimated market value is available, your CD(s) will be treated as "unpriced" and will not be reflected in the total account value reported on your statement. This market value reporting does not affect the maturity (face) value of your CD. The actual value of the CD(s) may differ if you elect to sell the CD(s) in the secondary market prior to maturity. The market value may be more or less than the maturity value of your CD. **The maturity value of your CD can be found under the "Quantity" column above.** "
