The STATE agrees to:

1. The STATE will communicate the location of known road-killed deer, including the highway number, county, milepost (MRM); or an adequate description of the location from a known point.
2. Provide the State Highway Patrol, DOT vehicles, and Game, Fish, & Parks with highly visible, wire staff, plastic flags that will be used to mark road-killed deer locations. These flags are to mark locations of road-killed deer not easily seen.

The SDDOT will provide, at no cost to the Contractor, the Android or iOS SD Roadkill Collection Application for recording road-kill pick-ups. The SD Roadkill Collection Application system requires a mobile device with an Android or iOS operating system which the Contractor must provide. The SDDOT will provide the Contractor training and technical support for the SD Roadkill Collection Application.
4. The STATE will compensate the Contractor monthly, at the contract unit price, for each deer picked up and disposed of properly. Any payment questions and problems should go to SDDOT Pierre Area Office at 104 S. Garfield Ave. Building A, Pierre, SD 57501 or (605) 773-5294.

If the magnetic signs are damaged the Contractor will supply the STATE with replacement signs at no cost to the STATE.

The CONTRACTOR agrees to:

1. Pick up of road-killed deer will be no less frequent than Tuesdays and Fridays after being contacted by the STATE. Road-killed deer reported before noon Tuesday are to be picked up by the end of the work day on the following Friday. Road-killed deer reported before noon on Friday are to be picked up by the end of the work day on the following Tuesday. Continued failure to pick up road-killed deer may result in early contract termination by the STATE.
2. Contractor will provide the STATE with the name of a contact person along with a cell phone number and e-mail address. Contractor must have an e-mail account. Notification to the Contractor

of road-killed deer and location will be communicated **via e-mail**. E-mail timestamp will serve as guideline by which road-killed deer shall be picked up.

3. Dispatch properly equipped vehicles with qualified drivers to pick up the reported deer kill, unless circumstances intervene – such as illness or holidays. In such circumstances, the Contractor shall promptly notify the STATE so that other arrangements can be made. The Contractor will work with the STATE to resolve any such problems.
4. Pick up all road-killed deer located within the public highway right-of-way on routes as listed on the contract, regardless if reported or not. Contractor will notify the STATE of the locations of road-killed deer that were not reported but properly disposed of.

The amber light is to be placed on the upper rear or cab of each vehicle used under this contract. The amber light is to be operating and will promote safety while loading road-killed deer, traveling at speeds less than 40 mph, or otherwise occupying the right-of-way while performing services under this contract. This rotating light shall be a minimum of 55 watt halogen bulb.
9. The Contractor shall park his vehicle only on the shoulder of the roadway or on a field approach so as to keep all traffic lanes open.

11. Purchase and maintain commercial liability insurance for the duration of the Contract to cover property damage or bodily injury as imposed by law. This liability insurance shall contain a minimum coverage amount of \$500,000.00. This insurance shall cover all operations under the contract, whether performed by the Contractor or a subcontractor. **(This liability insurance is above and beyond normal liability insurance typically associated with homeowners, automobile, etc. The Bidder is strongly encouraged to contact and insurance company prior to submitting bids for this contract to obtain quotes for this insurance.)**
