The South Dakota Department of Transportation and the South Dakota Department of Game, Fish and Parks, hereafter referred to as the STATE, are desirous of having road killed deer promptly removed from the public right of way and disposed of properly.

The STATE agrees to:

1. The South Dakota Department of Transportation will communicate to the Contractor the location of known road killed deer, including the highway number, county, milepost (MRM), or an adequate description of the location from a known point during normal business hours (8:00 AM – 5:00 PM).
2. Provide the State Highway Patrol, County Sheriffs, Department of Transportation and Game, Fish & Parks with highly visible, wire staff, plastic flags that will be used to mark road killed deer locations. These flags are to mark locations of road killed deer not easily seen.
3. Provide the Contractor with a supply of road killed deer reporting forms.
4. The Department of Transportation will compensate the Contractor monthly, at the contract unit price, for each deer picked up and disposed of properly. A contact person and telephone number will be provided to answer any payment questions or problems.
5. The SDDOT will provide, at no cost to the Contractor, the Android or iOS SD Roadkill Collection Application for recording road-kill pick-ups.
6. The SDDOT will provide the Contractor training and technical support for the SD Roadkill Collection Application. The SDDOT will pay the Contractor in accordance with the Payment Schedule included in this Agreement.

The CONTRACTOR agrees to:

1. Pick up road killed deer twice weekly (Tuesday and Friday) after being contacted as described in (1) above. **Continued failure to pick up road killed deer will result in early termination of the contract by the State.**
2. Provide the Department of Transportation with the name of a contact person along with a telephone number, cell phone number, email address and/or a fax number.
3. Dispatch properly equipped vehicles with qualified drivers to pick up the reported deer kill, unless circumstances intervene – such as illness or holidays. In such circumstances, the Department of Transportation will be notified and so advised. The Contractor will work with the Department of Transportation to resolve any such problems.
4. Pick up all road killed deer located within the public highway right-of-way on routes as listed on the contract, regardless if reported or not. Contractor will notify the Department of Transportation of the pick up of road killed deer that have not been reported.
5. Advise the Department of Transportation within twenty-four (24) hours of the discovery of unsafe circumstances at any road killed site that prevents the Contractor from reasonably accomplishing the pick up of a road killed deer.
6. Complete the State furnished Road Killed Deer Report forms for all deer collected. The
